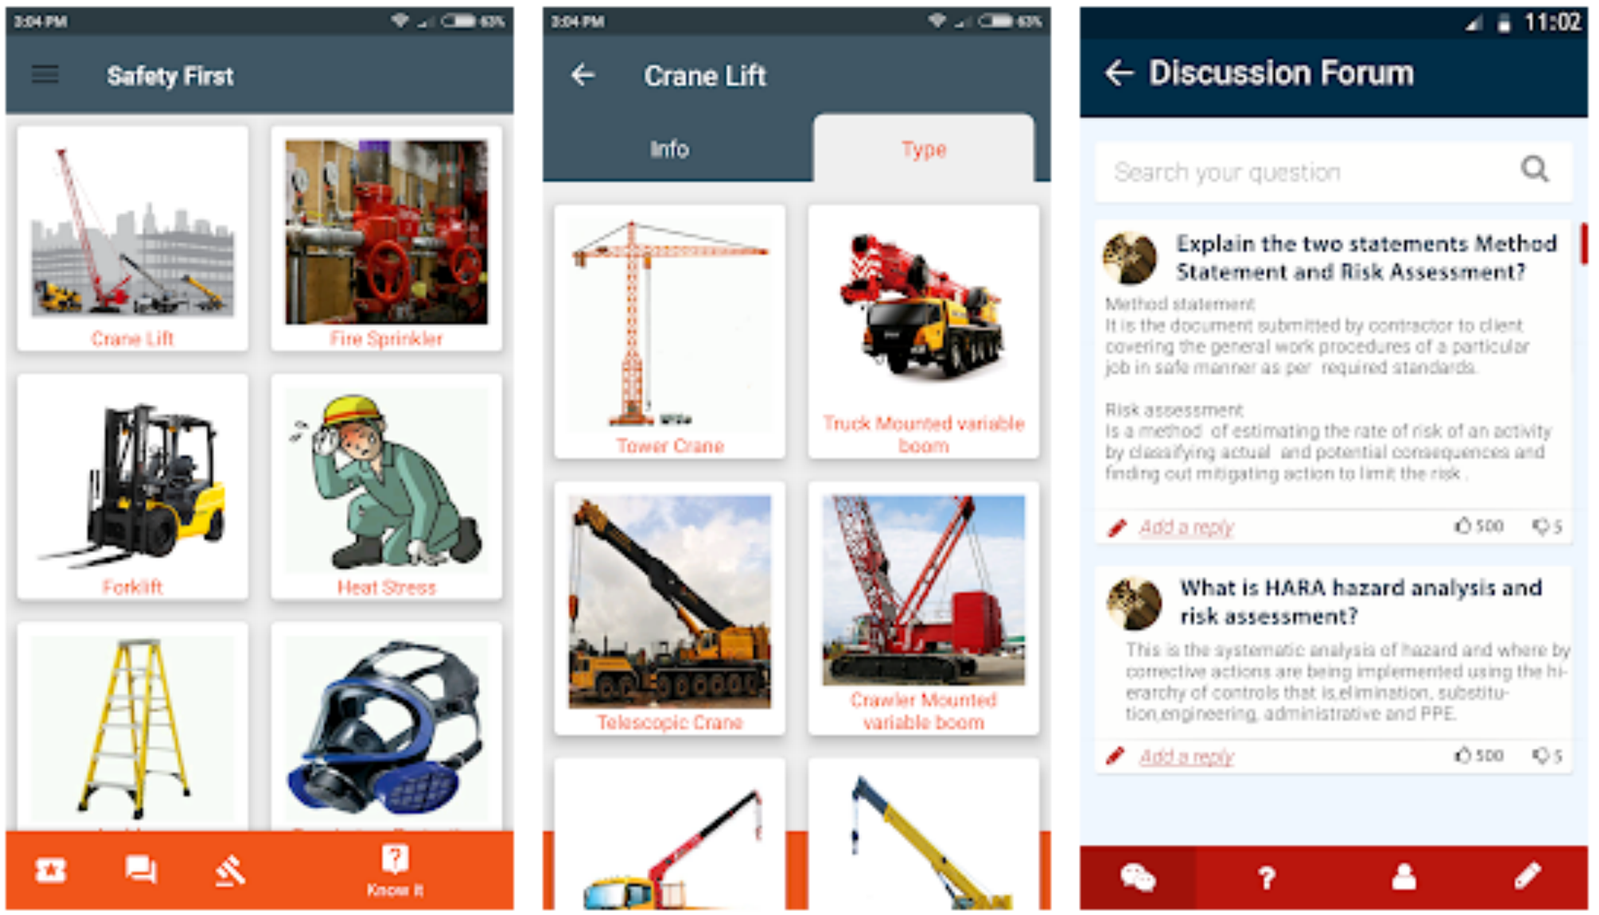
Safety First App

Being safe at all times can sometimes be a difficult task with all the different types of jobs there are. Even the simplest tasks can be hazardous if you don't know exactly what you're doing. Countless injuries can be prevented if people would just spend the time to learn about a job or task before just jumping in and trying to complete the job without knowing what to lookout for.



Safety First is a path breaking approach to connect members of the HSE community. It has been specifically designed keeping in mind
