

## Compressed Gas Storage Area

Date:

---

### Compressed Gas Cylinders

Y   N   N/A

- |                          |                          |                          |                                                                                                                                                                                           |
|--------------------------|--------------------------|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 1. Are all valve protectors always placed on cylinders when the cylinders are not in use or connected for use?                                                                            |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 2. Are compressed gas cylinders stored in areas which are protected from external heat sources such as flame impingement, intense radiant heat, electric arcs, or high temperature lines? |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 3. Are cylinders legibly marked to clearly identify the gas contained?                                                                                                                    |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 4. Are cylinders located or stored in a manner to prevent them from creating a hazard by tipping, falling, or rolling?                                                                    |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 5. Are cylinders located or stored in areas where they will not be damaged by passing or falling objects or subjects to tampering by unauthorized persons?                                |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 6. Are cylinders with a water weight capacity over 30 pounds equipped with means for connecting a valve protector device, or with a collar or recess to protect the valve?                |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 7. Are low pressure fuel-gas cylinders checked periodically for corrosion, general distortion, cracks, or any other defect that might indicate a weakness or render it unfit for service? |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 8. Are valves closed off before a cylinder is moved, when the cylinder is empty, and at the completion of each job?                                                                       |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 9. Does the periodic check of low pressure fuel-gas cylinders include a close inspection of the cylinders' bottom?                                                                        |

### Compressed Gas: Explosion Control

Y   N   N/A

- |                          |                          |                          |                                                                                                       |
|--------------------------|--------------------------|--------------------------|-------------------------------------------------------------------------------------------------------|
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 11. Are liquified gases stored and shipped valve-end up with valve covers in place?                   |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 12. Are pressure-reducing regulators used only for the gas and pressures for which they are intended? |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 13. Before a regulator is removed, is the valve closed and gas released from the regulator?           |

### Fire Alarm Systems

Y N N/A

☐ ☐ ☐

14. If you have a non-supervised fire alarm system, is it tested bimonthly?

☐ ☐ ☐

15. If you have a supervised employee alarm system (that is, does the alarm have a device that indicates system malfunction), is it tested yearly?

#### Liquified Petroleum Gas

Y N N/A

☐ ☐ ☐

16. Are "No Smoking" signs posted on liquified petroleum gas tanks?

☐ ☐ ☐

17. Are liquified petroleum storage tanks guarded to prevent damage from vehicles?

☐ ☐ ☐

18. Is liquified petroleum gas stored, handled, and used in accordance with safe practices and standards?

#### Portable Fire Extinguishers

Y N N/A

☐ ☐ ☐

19. Are all fire extinguishers inspected and recharged regularly, and noted on the inspection tag?

☐ ☐ ☐

20. Are appropriate fire extinguishers mounted, located, and identified so that they are readily accessible to employees?

☐ ☐ ☐

21. Are portable fire extinguishers provided in adequate number and type?
