Driver Safety

**What is Wrong with this Picture?**

Driver Safety - Answer Key

Driver Safety – Answer Key

- His seat is not adjusted properly.
- His leg is obstructing the steering wheel.
- He has his phone in his hand, which takes a hand off the wheel and his eyes off the road.
- He has food on his lap, which is a hazard for a sudden stop but also is a distraction to the driving

- The laptop on the seat of the car could go flying in an accident and cause head trauma. The fact that it is open and facing him on the seat suggests that it may also become a possible distraction

- The rearview mirror is not positioned correctly. It appears to be tilted towards the driver

- He didn't put his phone into the hands-free device holder.
- The reflection of the binder on the dash is obstructing the view from the windshield and the binder itself presents a hazard to the driver as it could slide off and into his face or lap at any time.
- There is an open beverage container with no lid, which is a potential for a burn if it contains a hot liquid.
